The [Beverly Hills Brownie Company](#) offers—yup, you guessed it—brownies. With 23 unconventional flavors, including new arrivals s'mores and no-gluten classic buttercream, the brownie boutique makes the rich treats individually, so each one has a crisp-edged crust and moist center. For events in the Los Angeles area, there is a brownie bar service that includes a full display setup and uniformed servers, and it typically involves a 10-dozen minimum order (but owner Bobbie Greenfield says there is flexibility). The company also offers custom brownie flavor and logo options, and gift packages can include custom parchment inlays and tags. Signature brownies are \$39 for a dozen, with special pricing available for volume orders.
