Electra's Ex: Cowell Is Cool

Carmon Electra is playing coy about her romance with Simon Cowell, telling Access Hollywood Live November 5 that "maybe!" the two have spent the night together. Her ex-husband, however, isn't as tight-lipped. Dave Navarro, 45, who split with Electra, 40, in 2006, tells Hot Stuff that Cowell, 53, "seems to be a great match for her." Better, at least, than her former fiancé Rob Patterson. 42. "Normally, I'd say how great it is to see her with a guy who has his s--t together for a change," he cracks.
